Oil can history	<p>According to current research items manufactured were not sold under the own name. They carried mostly the brand name of either the wholesaler or customer they have been contract manufactured for.</p> <p>Most prominent examples are the MAC-STAN stamped oil cans with flexible spout and references to two patents from the early 1920's (see pictures and documents below).</p> <p>In addition to the above stamp some oil cans and other items produced carry a „Made in England“ logo as shown to the right. Although it is not 100% confirmed this stamp to be solely used by Walker &amp; Loach I found at least one other (non-Mac-Stan) oil can that appears in their catalogue that carries solely this logo (see pictures below).</p>
